Workplace safety is a huge concern for me and my business. I want to make sure that I have the best safety resources available for my employees.

The Home Improvement Self-Insurance Group provides us relevant updates on workplace laws and safety procedures, as well as on-site safety audits and unlimited safety consultations. Additionally, I have access to valuable documentation for claims filing, billing and training through an online account.

HISIG has the safety resources and expertise that I need to protect my employees and my business.

Being a part of the HSIG group allows our company to have the resources of a professional team of knowledgeable and dedicated staff to assist and guide us with all of our workers' compensation needs. This is the most cost effective workers' compensation plan that we have ever signed onto.

A handwritten signature in cursive script that reads 'Linda Contreras'.
