

I joined the Home Improvement Self-Insurance Group to take ownership in my workers' compensation costs. I am investing in a company that truly works on my defense.

There is a huge difference, in terms of rate, between traditional insurance companies and self-insurance groups. I see a return on my investment with HISIG.

In workers' comp, employers pay for claims in their future rates. With HISIG I have a team dedicated to keeping my costs down. They aggressively identify and act on fraudulent claims, as well as work to close claims quickly.

The professionalism I have experienced with HISIG is over the top!
